

We are pleased to announce these new features we have added to our FashionSense and MultiFlex RMS software systems for Fashion Retailers:

## **MultiFlex RMS:**

### **Loyalty Points Program:**

Reward your customers for their loyalty with points for every purchase made that can be used towards future purchases in your stores.

\$295 per store

### **Gift Card Program:**

Benefit from the fast growing trend of giving gift cards: More than 80% of all shoppers use gift cards and 50% of shoppers prefer gift cards over traditional gifts.

\$295 per store

### **Special Offer:**

Order before **July 31, 2006** and receive  
**loyalty points and gift card program bundle**  
for only **\$450**

**To order call 1.888.491.8888 ext. 223**

## **FashionSense and MultiFlex RMS:**

We have integrated two additional services with our Retail Management POS software systems: **X-Charge** and **Mercury Payment Systems**. Both are industry leaders in credit and debit card payment processing. Their payment processing systems are integrated directly into the POS software, eliminating the need for stand-alone terminals and third party software. Credit and Debit Card transactions are processed in 2-3 seconds over secure high speed internet connections.

X-Charge is available for FashionSense and MultiFlex RMS users in the US.

Mercury Payment Systems is available for FashionSense users in the US and Canada.
